

How does the Kings III solution benefit

YOU?

For Elevators
Flush or C.O.P. Mount

At Kings III, our focus is on helping our customers to reduce their risk, their liability and potentially their costs by providing best value help phone solutions and class-leading service.

Reduce YOUR Hassle

All-inclusive (Turnkey) Package- Equipment, installation, 24-hour monitoring with auto testing and maintenance all with a single provider and for one low monthly fee.

Reduce YOUR Costs

Line Seizure Technology = Eliminated Phone Lines
Common lines used include fax lines, access control, back office lines, secondary fire lines and HVAC lines. No landline available to seize? Our unique cellular technology may be the perfect solution. **Plus, never invest in new phones due to elevator modernization or alteration during the life of your relationship with Kings III.** Our all-inclusive package includes new phones when you modernize.

Reduce YOUR Liability

Every phone call is digitally recorded, date/time stamped and permanently stored automatically. **Ask how your property can be named an Additional Insured under our multimillion dollar liability, E&O and umbrella insurance policies.**

Reduce False Dispatches & Surprises

Kings III 24-Hour Emergency Dispatch Center
The *right people with the right training* result in the *right response*. The Kings III dispatch team is trained to identify situation types and handle them accordingly. User location is instantly displayed on dispatcher computer screens to provide rapid and accurate response and operators notify onsite personnel of the emergency situation unfolding.

All operators are Red Cross CPR and HIPPA certified and full time operators are Advanced Emergency Medical Dispatcher (AEMD) certified, thereby reassuring appropriate and professional response.

Code compliance of initial installation guaranteed.

"When you consider value, liability protection and service, Kings III is an excellent choice. They are a great partner, one we would recommend to anyone in the market for emergency communication services."

- William Castillo, Case & Associates Properties, Inc.

"The real sale for me was the reporting and conversation recording ability. This is definitely a system I recommend for our properties throughout for cost savings and liability concerns."

-David Stauber
Parkway Properties, Inc.
